

Abstract

~~The present invention provides a method~~ Methods for selectively assaying a target adiponectin multimer in a biological sample[[,]]. ~~and a~~ Such methods ~~for~~ accurately ~~evaluating~~ evaluate the relationship between a disease and adiponectin through ~~selectively~~ selective assay of ~~the~~ adiponectin multimers[[,]] ~~which gives such~~ and provide information that cannot be obtained through measurement of ~~only~~ the total amount of adiponectin alone. A method for selectively assaying of a target adiponectin multimer in a biological sample[[,]] comprising ~~a step of~~ distinguishing target adiponectin multimer from the other adiponectin multimers by using a protease and/or an antibody.
